

What's up with Sinclair Broadcasting? Can they legally force their stations to air an anti-Kerry piece immediately before the election? Is anyone checking to see if this media consolidation is in violation of FCC regulations regarding free use of airways?

Is this the way they (and you!) serve the "public interest", by throwing gasoline on an already volatile election that has been permeated by lies and distortions that seemingly no one has control over? And isn't there a better way to renew licenses for these media giants than with just a returned postcard?

Please exert whatever pressure and control you still possess as an agency to bring Sinclair in line with fair standards.

Thank you.
